- 5 Placera bänken på ett jämnt underlag.
Belasta bänken med handen, och justera tills alla benen är i nivå med golvet.

Place the bench on a flat surface.
Put a light load on the bench and adjust until all legs are levelling with the floor.

Aseta penkki tasaiselle pinnalle.
Paina penkkiä kevyesti ja säädä, kunnes kaikki jalat ovat samalla tasolla lattian kanssa.

Stellen Sie den Bank auf eine ebene Fläche.
Belasten Sie den Bank leicht mit der Hand und justieren Sie ihn, bis alle Beine auf gleicher Höhe mit dem Boden sind.
